

Directions in Firefox 6 to delete temporary Internet files to make Infinite Campus work correctly

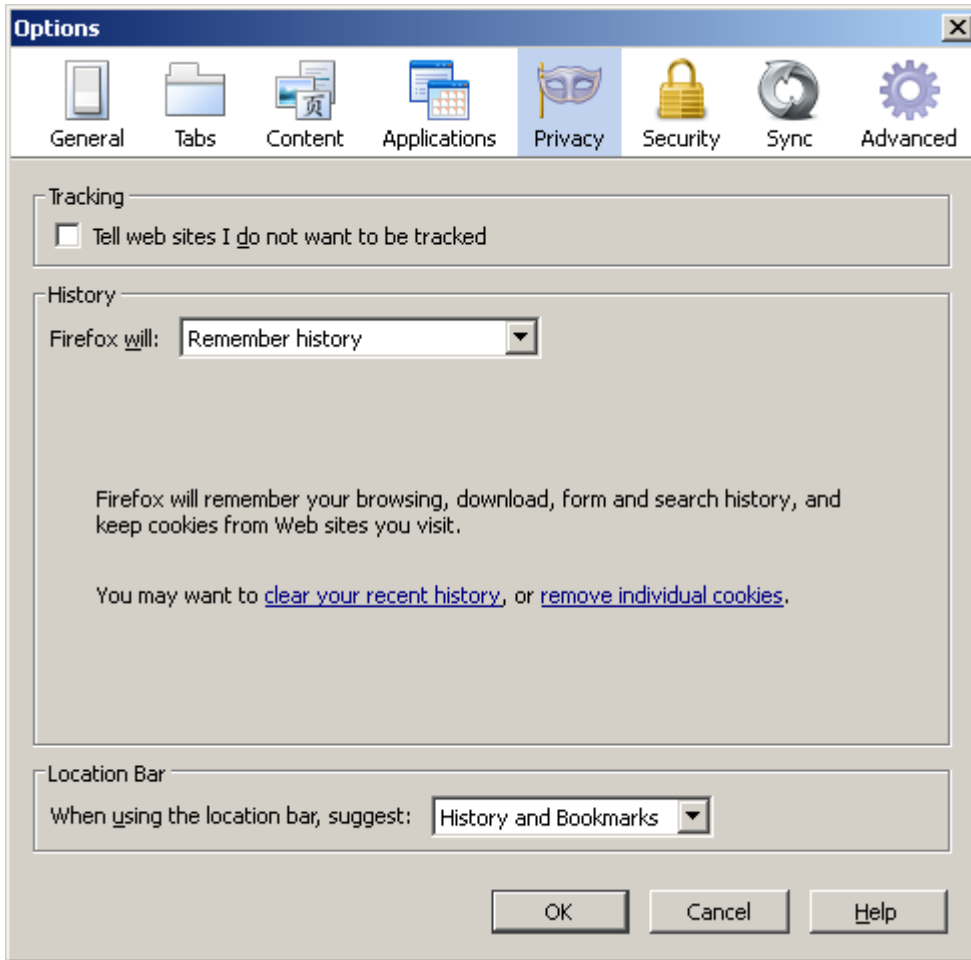

1. Close **ALL** Firefox windows.
2. Open Firefox but do **NOT** open the Infinite Campus page.
3. Depending on the menu setup at the top of your Firefox follow either step 3a or 3b.
 - a. If your top menu looks like the picture below then proceed with this step. Click on the Firefox menu on the top left corner of your Firefox. Open Options > Options.

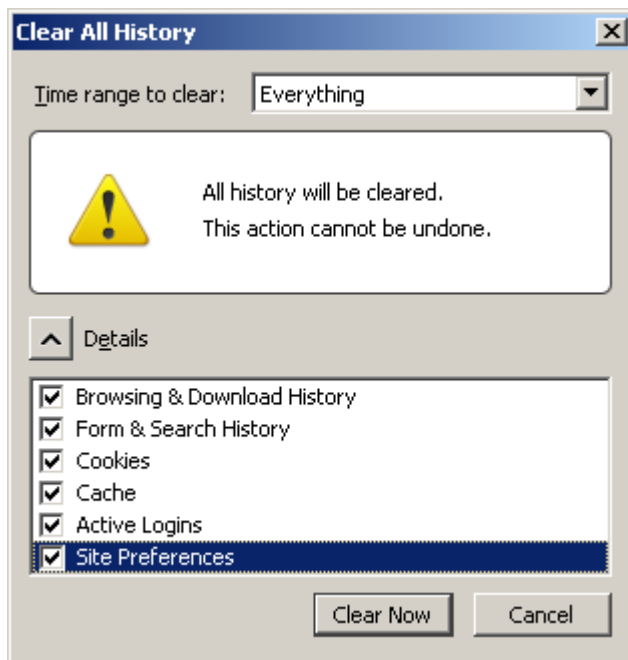

b. If your top menu looks like this below then proceed with this step. Click on Tools >Options.

4. Click On the Privacy Icon. Then click on “clear your recent History”.

5. Change “Time Range to Clear” to “Everything” and make sure all checkboxes are checked. Then click “Clear Now”. It can take a few minutes to finish. Once the “Clear All History” window closes click “OK” to close the Options window.

6. **Now close Firefox down.** You should now be able to re-open Firefox and use Infinite Campus without problems.
